

# SETUP GUIDE - MEETPAT ICE BOX WATER CHILLER

We love our Meet PAT units and we hope you do. It is very important to keep your units in the best possible condition. We recommend following the our cleaning guide to avoid any contaminates entering the system and always keep your units clean and stored in a dry cool place.

**This setup guide is only for the MeetPAT Ice Box.** Please follow the set up guide for the bottle refill unit and drinking fountain.

## READ THIS BEFORE SETTING UP YOUR ICE BOX

Here at **Meet Pat** we are very safety conscious. We design and manufacture water related products with the safety of you, the user, foremost in mind. In addition, we ask that you exercise a degree of care when using any Meet PAT product and adhere to a common sense approach.

- Do not set the units up near live exposed electrical connections or wiring.
- Do not set up in high wind areas.
- If the hoses pass over traffic areas use approved hose trip covers.

Please refer to our website [www.meetpat.com.au](http://www.meetpat.com.au) for full safety, setup and warranty info.

# SETUP GUIDE - MEETPAT ICE BOX WATER CHILLER

**1**

Check tap for pressure and clean water.

**2**

Fill the MeetPAT Ice Box with ice and water so the coil is covered at all times.

**3**

Connect the Ice box to the refill unit using the joiner hose. Connect the other outlet to the tap using the tap adapter and hosing supplied with the refill unit.

Turn on the tap.

**Note: The unit has to have a drain hose connected to drain.**

**4**

Run all the taps for 10 seconds.

**Check for leaks.** If a leak is found turn off the water and check connections.

**5 ICE COLD**

Check the Ice box during use to make sure there is sufficient ice covering the coil.

**6 PACK DOWN...**

Follow the Pack Down instructions supplied with the refill unit.

Empty the ICE box after use and leave open to completely dry before storage.
